SUMMARY

I am an MCA graduate with strong analytical and problem-solving skills, proficient in Python and database management. I have hands-on experience in backend development and GenAI-based applications, with a focus on building scalable and efficient software solutions. I am a quick learner, adaptable, and motivated to continuously improve my technical skills.

EXPERIENCE

Role: Backend Developer & GenAI Developer intern

Nov 2025-May 2026

Company Name: Digitaly AI Tech Solution ,Karaikudi| 6 Months

Worked on real-time backend development using Python with MongoDB and MySQL. Built and maintained REST APIs and backend logic, and contributed to GenAI-based features including AI agents and LLM-driven functionality, supporting scalable and efficient application development.

Role: Python Intern

May 2024-Jun 2024

Company Name: Pumo Technovation, Chennai

Worked on Python-based development tasks including data automation and report generation. Assisted in debugging and optimizing existing Python codebases, and gained hands-on experience with libraries such as Pandas and NumPy. Collaborated with senior developers on a mini-project using real-time data.

PROJECTS

Attendance Tracking System using Python and MySQL

Tools & Tech: Python, MySQL, PyMySQL, Datetime

Developed a simple Attendance Management System using Python and MySQL to add employees, mark attendance, and update records. Performed CRUD operations with proper database connectivity and generated monthly attendance reports while ensuring data accuracy through input validation.

Company-Based AI Chatbot Using RAG s LLM

Tools & Tech: Python, LangChain, FAISS, Sentence Transformers, RAG, LLMs, MongoDB

Developed a company-based AI chatbot to answer user queries using internal data. Implemented document ingestion, text chunking, and embeddings with a vector database for efficient retrieval, and used RAG with LLMs to generate accurate and context-aware responses.

EDUCATION

Master of Computer Applications

July 2023-Apr 2025

Bharathidasan University

- J J College of Arts and Science -87%

Bachelor of Information Technology

July 2020-Apr 2023

Alagappa University

- Arumugam Pillai Seethai Ammal College -86.6%

SKILLS

- Programming Language: Python
- Databases: MySQL, MongoDB
- Backend: Django, FastAPI
- AI & GenAI: GenAI, AI Agents, RAG, LLM
- Libraries & Tools: Pandas, NumPy, Matplotlib, LangChain, Google Colab, Power BI, Tableau
- Soft Skills: Problem-Solving, Logical Thinking, Team Collaboration
- Certification: Project Management - NPTEL (2024)
- Award: 9th Rank Holder - B.Sc. Information Technology, Alagappa University
